

Nature Card

Rocks “Rock”

STEPS

1. Pick up two rocks.
2. How are they different? Compare their size, shape, color, texture, and weight.
3. Draw your favorite one; give it a name.
4. What would it tell you? Where did it come from?

Find out more about rocks @ naturetrack.org ~ field trips ~ virtual trips ~ midland geology - part I

Try using a Venn Diagram to compare your two rocks. Use words to describe what is unique to the first rock in Circle 1. Use words to describe what is unique to the second rock in Circle 2. In the oval where the two circles intersect, use words that would describe BOTH rocks.
